

Assignment 4

write a java program create a mutable and immutable string display the length of the string and substring(2,5)

string star=" java program".

```
package Section2;

public class Assignment4 {

    public static void main(String[] args) {
//        immutable string
        String star = "java program";

//        mutable string
        StringBuilder s = new StringBuilder("java");
        s.append(" program");

        System.out.println("Length of string = " + star.length());
        System.out.println("sub-string = " + star.substring(2,5));
        System.out.println("Length of string = " + s.length());
        System.out.println("sub-string = " + s.substring(2,5));
    }
}
```
